Cancer Research UK City of London Centre Opportunities for Clinicians - Doctoral Fellowship starting September 2025

What we offer:

- Fellowship for clinicians to carry out cancer biotherapeutic research leading to a PhD
- Projects co-designed by you tailored to your background and interests
- 3 years funding, salary based on current experience
- Based at one of the Centre's partners: UCL, King's College London, Queen Mary University of London or Francis Crick Institute
- Multi-disciplinary training, cross-institutional research placements, cohort-building
- Customised training plan developed and tailored to the trainee's background and project requirements
